Responsible for the front-end & back-end implementation of partner projects.

Javascript, CSS , NodeJS, React, MySQL, Postgres ,Kubernetes, AWS and GCP, Docker & Kubernetes

- Built a WordPress plugin to integrate Clym systems with WordPress sites, plugin available on the WordPress plugin store.
- Build a Shopify app to integrate Clym systems with Shopify stores, plugin available in the Shopify app store.

JavaScript Mastery
Nov 2022 to Dec 2022

Software Developer for Adidas World Cup Project

Core team member of web application for the Adidas Headquarter's in Qatar during the World Cup. Built a web app that consisted of a scrolling photo wall, with rotating images taken from user's phone.

Built using NextJS, Tailwind & Typescript.

- Scrolling wall, cycling through the different images, with a QR code on the home page that would open automatically to a submission screen so users could take & upload their picture.

JPL Media
Jul 2021 to Dec 2022

Solutions Architect   Remote

- Implemented Microservices (with API layer) solution from scratch using NextJS, Express & custom made NPM packages.
- Built a modern user management dashboard for clients.
- Built a modern browser-based self recording solution for clients.

References

Adrian Hajdin (Founder & CEO of JavaScript Mastery)

Santi is an exceptional full-stack developer and team leader. He has strong expertise in handling payments and working with various databases such as Postgresql and MongoDB and tools such as Supabase. His proficiency in Node.js has made him a valuable asset to any project. I highly recommend Santiago to any team looking for a skilled and reliable developer.

Jason Gager

Santiago Laight is exactly the kind of person you want working at your company. He has a calm and enthusiastic personality that fits extremely well into any customer facing situation, and projects competence and mastery of his subject. Over his time at Pathable, he continually volunteered for new projects and even independently developed some useful tools for our services team to use in their daily jobs (...) I couldn't recommend Santi more highly. He breaks the scale.

Projects

AFC Warszawa Official Site

🌐 www.afcwarszawa.com/

Website for the AFC Warszawa football team in Warsaw, Poland. Online booking system, upcoming training sessions & matches for the team.

javascript, google maps api, sanity, stripe, tailwindcss, nextjs, google oauth
